ENERGY MINISTERS MEETING 2009

# BEYOND THE CRISIS: TOWARDS A NEW WORLD ENERGY LEADERSHIP

**G8 Energy Ministers Meeting**

Rome, May 24-25, 2009

---

ORGANISERS

## Acknowledgement

We are glad and honored to give the G8 Energy Ministers' Meeting our support and to contribute a publication to this volume of proceedings.

"Beyond the Crisis: Towards a New World Energy Leadership" is the theme of the Energy Ministers' Meeting. The theme offers a unique opportunity to debate world energy policies and priorities while defining an energy exit strategy from the economic and financial crisis, and preparing a green recovery.

The Energy Ministers have decided to focus on how to respond to climate change, how to promote energy investment and well-functioning energy markets and how to ensure access to commercial energy sources for the less developed regions of Africa.

In our view, the increasing interdependence of the world energy community and the changing patterns of energy production and demand turned out to be the two recurrent elements of the debate on how to confront the new energy challenges. We presume that any future Energy Ministers' Meeting would have to involve all the major economies of the world as an integral part of the decision process.

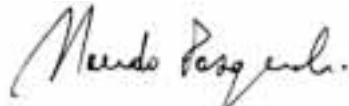

The GSE, the Gestore dei Servizi Elettrici, is a public-owned company whose main mission is to promote the development and market deployment of renewable energy sources in Italy. The company fosters sustainable energy systems and markets by providing renewable electricity generation with incentives and directives, and by taking action to raise awareness regarding the efficient use of energy and environmental protection.

Our wish is that all parties will act in accordance with the greatest spirit of responsibility and co-operation as needed for a sustainable energy future.

### **Nando Pasquali**

Managing Director

Gestore dei Servizi Elettrici Spa, GSE, Italy

### **Foreword**

---

- 011** Foreword by the Minister of Economic Development of Italy  
*Hon. Claudio Scajola*
